Message: *Hey CA FFA! I'm thrilled and thankful for the chance to serve as a State Officer this year. I look forward to getting to meet as many other FFA members as I can this year. I'm super proud of the way members all across the state have adjusted to a changing world and have done what they can to make this year positive and memorable, for themselves and those around them. When I'm not rocking the blue jacket, you can find me laying on the couch watching YouTube or sitting on the edge of my seat watching any sport. I love learning, whether it's a new fun fact or learning more about someone else. I'm a pretty laid-back dude but I'm always down for a cool adventure. Now that my keeper gloves and soccer cleats are hung up, I'm looking forward to seeing where my life takes me and meeting incredible people in my year as a State Officer.*
